

LIMAline 60

Dimension sheet / technical data

- Materials:** Housing and gear parts made from high-quality plastic elero 14 profile shaft _(PW) made from stainless steel elero bush _(PH) made from anodised ALU
- Mounting position:** any
- Mounting dimensions:** Min. 44 mm x 125 mm clear inside dimensions for mounting in static profile supplied by the customer.
Note: Mounting dimensions with elero drive motor, min. 55 mm x 125 mm.
- Service life:** 10000 x 180° cycles right and left

Designation	Driving torque: M _(PH) dyn. (Nm) elero profile bush		Driving torque: M _(PW) (Nm) elero 14 profile shaft	M _(PH) stat. (Nm) lead peaks	Angle of rotation (°)	kg
LIMAline 60	Load peaks up to 16 Nm		3,0	60,0	> 360	0,3 30
	8		2,0	60,0		
	4		1,5	60,0		
	Operating time(sec.)	Pause time (sec.)	Ambient temperature (°C)	Drive speed - profile shaft _(PW) (min ⁻¹)		
	65	180	-20 bis + 60	max. 26
